Use of Federal Power to the Limit To Enforce Prohibition Promised by President; That of States Demanded

Machinery of Congress and Legislatures Must Be Used to Full Capacity.

NOT POLITICAL QUESTION

Surrender of States Not Contemplated By 18th Amendment of Enforcement Act, He Tells Governors; Great Body of People Law-Abiding.

By United Press

WASHINGTON, Oct. 20.—The problem of prohibition "must be taken directly to the American people," President Coolidge in his first direct and complete pronouncement on the prohibition question declared in an address to the governors' conference at the White House today. At the same time President Coolidge pledged his own support and the support of his administration "to the limit" to the "great law-abiding element of the Nation, as provided by the Constitution and the law of the land against every lawless element."

Referring directly to the question of prohibition enforcement, the President told his listeners that the machinery provided by Congress and the state legislatures "must be used to the full extent of its capacity to secure the enforcement of the law."

"It is certainly my own purpose so to use it," he added.

"This is not a political question; it cannot be made a political question," said Mr. Coolidge.

Taking up the states' responsibility in the enforcement of the prohibition laws the President said "no provision of the 18th Amendment or the national prohibition act contemplates any surrender of state responsibility. We can only make progress with these problems by their frank and candid consideration. They are not going to be decided by prejudice. They are not going to be answered as a result of political intrigue.

"These problems must be taken directly to the American people. This government is their government. These laws are their laws. They have formed their government and enacted their laws with all due solemnity to promote their welfare and protect their liberties. They are not a nation of inebriates; they are not a people who can be charged with being hypocrites.

"They have no patience with anarchy. They are sober, frank and candid people. They have respect and reverence for duly constituted authorities."

To them the law is a rule of action. These fundamental national characteristics are not going to be changed. These fundamental conceptions are going to remain permanent. The great body of the people are thoroughly law-abiding. This great law-abiding element of the Nation is entitled to support and protection. I propose to give that support and protection to the limit provided by the Constitution and the law of the land against every lawless element. The people are going to continue to yield obedience to the law."

Beginning his address to the governors on the problem of enforcement of the law, on the questions of immigration, narcotics and prohibition President Coolidge declared:

"A people which does not enforce its laws is unworthy of the name of government and cannot expect to hold either the support of its own citizens or the respect of the informed opinion of the world."

The President said that it is estimated by the Department of Labor that "there is a seepage over the border and through the ports of about 00,000 annually who evade the immigration laws and are smuggled into the United States, which is a considerable menace to the success of our immigration policy." He asked the cooperation of local police authorities along the borders and the seacoast to halt the smuggling of alien immigration.

Mr. Coolidge declared the "dope" menace can only be eradicated through a system of local inspectors and police." He praised the work of American representatives at the session of the League of Nations to regulate the opium traffic.

WASHINGTON, Oct. 20.—President Coolidge meets in conference today with governors of the American states and territories on one of the most difficult problems before his administration—prohibition.

After the row over the adoption of the enforcement resolution at the

NEW YORK, Oct. 20.—The Scientific American Investigating Committee, which has been conducting a competition for a prize of $2,500 offered for production of objective psychic phenomena, yesterday ruled that the Rev. Mrs. Jos. K. Stewart of Cleveland, who has given several demonstrations under the auspices of the committee, has failed to produce any demonstratably genuine psychic phenomena.

Mrs. Stewart succeeded, it was stated, in producing "writings," but did so by substituting cards of her own for those furnished by the committee.

"Mrs. Stewart," a statement issued by th committee last night declared, "undertook to produce for the Scientific American Investigating Committee, independent spirit writings upon cards supplied by the committee.

"The sub-committee in charge of Mrs. Stewart's sittings finds that she has failed to do this. She has produced writings only on cards brought to the sittings by her and substituted by her for those supplied by the committee."

Large Potato Crop In Somerset County

MEYERSDALE, Oct. 20.—Somerset county has long been famous for the quality of its potatoes and justly so. This year the crop is exceptionally fine and large yields are reported from many sections tributary to this borough. One of the finest fields of potatoes seen in this vicinity is that on the old Milton C. Horner farm just north of town. This farm, now the property of P. A. and W. E. Schell of Somerset, is being worked by Melvin Lindeman and he has demonstrated his ability as a scientific and progressive farmer by the excellence of the crops he has raised.

The potato field on the farm covers approximately six acres; from this field Mr. Lindeman estimates he will harvest something in excess of 1,300 bushels, or an average better than 300 bushels to the acre. As a matter of fact, one acre of this field has produced over 400 bushels, which entitles him to membership in the "400 Club."

Cool Wave to Follow Period of Warmth

The end of the present pleasant spell of Indian Summer is predicted in the noon weather forecast today. It is believed that by tomorrow a cold wave will have settled, which will bring down the thermometer to about 35 degrees. A heavy frost is forecast.

Although yesterday afternoon and evening were made disagreeable by a drizzle which fell almost continuously, today was bright and fair. The maximum temperature yesterday, in spite of the incle[illegible], was 76 degrees, but it was [illegible] this figure would hardly be attained today.

The Youghiogheny River, for the first time in many days, rose over the .50 of a foot mark, to .51 of a foot.

The minimum temperature registered last night was 50 degrees, making a fairly comfortable night.

Eskimo Pie

is ready, folks—

For several weeks customers have been asking our dealers about Eskimo Pies, wanting to know whether they were going to have them again this Fall and Winter; also whether the "pies" would be the same as last year.

This is about the best way we have of finding out what people want. And once we know this, no expense or effort is spared in getting it for them.

Ask your dealer any time for your favorite flavored or special packaged Ice Cream. We appreciate this; so does he, and if he doesn't happen to have it he'll get it for you. This applies also to orders for special shapes and moulds, appropriate for social affairs.

About the Eskimo Pie little need be said. Everybody, it seems, knows about its goodness and has enjoyed that tempting flavor which made it the greatest sensation in the history of Ice Cream.

Keep this in mind, though, about the coating of Chocolate: It is as pure and rich in food-value as you'll find in the choicest brand of Chocolates.

Eskimo Pie is a favorite of the kiddies. Nice thing about it, too, is that its good for them. Chocolate contains heat elements and high food-value, and when combined with the wholesome quality so natural to HAGAN'S Ice Cream, you have an ideal food-confection in ESKIMO PIE.

ABE MARTIN — On a Good Name

THRIVIN ON A GOOD NAME

Th first thing anybody should do after they got out o school is t' begin t build up a good name. If they kin work on it a little in th evenin's while they're goin t school all th better, but they should jump int it in earnest th minute they git thar diploma. A good name has been th salvation o' thousands who thro no fault o their own have been overtaken by th various vicissitudes that beset th human race. Ther's allus some time in everbuddy's life when a good name comes in handy, a time when nothin else could git 'em by. In affairs o th heart, in business society an politics an even in raids a good name is better than good clothes or nerve or th' best lawyer or money or a pull. Even if you don't amount t anything your father's good name or your mother's good name 'll often pull you through. Most everthing else comes purty easy after we once establish a good name. O' course we can't jest loaf around an' cash in on a good name as many are inclined t' do an it don't do t' flaunt a good name. A good name should be let alone an' it'll take care of its own publicity. A good established name makes a dandy trademark. In ever' community ther's folks that have inherited good family names, an many o them are jealously guardin 'em an keepin up o family traditions t th best o ther ability. In ever town an' city ther's prosperous concerns doin business under ole reliable firm names, names o men long dead, men who had built up enviable reputations by fair dealin an' honest useful lives. These ole firm names are valuable business assets an those that are usin 'em realize that they must foller in th footsteps o ther honorable predecessors if ther business is t grow an prosper. We saw a sign one time across th front of a fine new fourteen-story business house that read "Henry G Baldwin's Sons Son Company." Ther wuz three Baldwin' all in a row that had good names an all had passed away, an th' business wuz owned by a stock company that wuz breakin its neck t' keep th concern goin' so nobuddy would notice th difference. So if a good name is a priceless asset in business it ought t be purty helpful in all th' common transactions o life. We kin tell that a good name is better n riches by those who prefer th riches.

The wide extent of the Charles Ray popularity probably is in a great measure due to the fact that his pictures all deal with American life of today as it is lived either in big city or small town and have in them the type of humor and pathos that are distinctly typical everywhere. They deal with the emotions and thoughts and experiences of the every day citizen everywhere with the experiences and problems confronting both the city man and the rural dweller while the comedy and drama elements spring from the most natural feelings and motives.

Monday, Tuesday and Wednesday "The Marriage Maker" with Agnes Ayres and Jack Holt in the stellar roles will be shown.

An Elemental Duty Of Parenthood

Pittsburg Gazette Times.

There is magic in the words, "I love you." Purred into the ears of a young woman by an acceptable man, they intoxicate. Don't blame the girls if they are deceived by unworthy suitors and marry without making sure of the character of their wooers.

One who has had a bitter experience, giving her hand in marriage to the husband of another woman, advises all her sisters to "hire a detective to investigate the life and reputation of their suitors" before they marry. This is sound so far as concerns girls separated from their families and without the protection of parents. But those who are "out in the world on their own" are less in need of such advice. Independence begets caution that affords the essential protection. The warning uttered by the victim of an unscrupulous man should be heeded by girls, of course, but in particular their parents should ponder its implications.

If the fathers and mothers of young women were as careful as they should be about the company their daughters keep there would be fewer broken hearts and spoiled lives. In this time of extraordinary freedom granted the young there are difficulties in the way of parents absolutely safeguarding girls from the adventurous. But when a man is introduced as the accepted suitor of the daughter such difficulty vanishes. It then becomes the parents' duty to "find out about him." If they neglect this and their child becomes a victim blame for her misfortune attaches to them, morally, as fully as to the receiver.

Rarely would it be necessary to hire a detective to ascertain the character of the man. A few simple inquiries put to him, together with a checking of his answers, would establish his acceptability or non-acceptability. His "I love you" might win the girl in spite of disclosure of a shady past. In that case, though, the parents need not accuse themselves of neglect to perform an elemental duty of parenthood.

Verdict Against Mayor Cauffiel Is Returned

SUCCESS.

Here is the road to fame
 And fortune's golden smile
Honor too strong for shame,
 Patience to wait the while,
Courage to bear the pain,
 Pluck when the hill is steep,
Faith when your strength seems vain—
 Never is victory cheap.

Here is the price of worth
 And conquest's shining goal:
Hands for the tasks of earth,
 And ever a sturdy soul,
Willing to bear the load,
 Sowing before you reap,
Daring to blaze the road—
 Never is victory cheap.

Here is what glory asks,
 Here is what life requires:
Grace at the common tasks,
 Patience that never tires,
Men who will slowly climb
 Mountainous pathways steep,
Willing to abide their time—
 Never is victory cheap.

Republican Candidates All Men of Large Caliber

Two weeks from next Tuesday is election day in this city, county and state. It is an important election to the voters of Fayette county for practically every county office is to be filled. In view of this fact, it is highly gratifying to Republicans of the county that their ticket is one of unusual strength because it is composed of men of standing and ability who are well-qualified to give an efficient administration of the various important offices which for the next four years will be in charge of the winners on the sixth of November.

The candidates are the expressed choice of the voters of the party at the September primaries. They are making a clean and active campaign. They are being received warmly by the voters in every part of the county. They deserve the hearty and enthusiastic support not only of Republicans but of the citizens of the county generally. Seldom has the party gone before the voters of the county for their support with a ticket of such representative balance, ability and strength as the present one affords. If the Republicans of Fayette do their full duty as citizens and voters on the coming election day, the success of this ticket at the polls is assured. Judging from reports, such success is assured but the rank and file of the party are urged to take nothing for granted. Let every Republican do his full duty as a Republican and citizen by voting the straight Republican ticket and counseling every other Republican to do the same.

Edward D. Brown is the candidate for district attorney on the Republican county ticket. Mr. Brown was born in Georges township, July 19, 1877. He received his education in the common schools and California, (Pa.) Normal, graduating in 1900. He then went to law school and later read law with D. M. Hertzog. Ever since his admission to the Fayette County Bar he has practiced in the county, being a member of the Supreme, Superior and Federal Courts. He served four years as councilman in Uniontown. He is well fitted for the important office for which he has been nominated and is on record for an efficient and vigorous administration, without fear or favor. Republicans are fortunate to have such a candidate for this office.

John Q Adams is the candidate for sheriff. He was born in Ohio, in 1882; attended the schools of Harrison county, Ohio; did farm work with his father until he was 22 years old when he came to Uniontown in 1903 and entered the produce business, organizing a company with his brother. In 1916 he organized the Adams and Woodward Company, distributors of Republic trucks, and in 1918 he entered the touring car business and is now a partner in the Central Auto Company. He has served as a member of Uniontown council since 1917, being superintendent of the streets and improvements department. Mr. Adams has the qualifications needed to make a real sheriff and enjoys a wide acquaintance and splendid business record.

Earl Huston is the candidate for controller. Mr. Huston was born in German township 38 years ago and spent the early years of his life on the farm. From 1911 to 1920 he served most ably as deputy controller of the county. The experience he received during those years gave him splendid training for the high office which he has so well filled the past four years. He has always been an active and effective worker for the party, having served as county chairman and in other positions of responsibility. Mr. Huston is likeable, courteous, capable, an experienced and square official who deserves a one hundred per cent endorsement of the voters at the polls the first Tuesday in November. And that is just the endorsement he will get, too.

The candidate for treasurer is William C. Smith. He was born in 1862 in North Union township, on the Phillips farm, and at the age of 10 years moved with his parents to Menallen township. He received his education in the schools of North Union township and Menallen township. At the age of 18 years he moved to Dunbar where he has resided ever since. He was associated with his father, the late P. F. Smith, in the meat business and at the death of his father succeeded his father in the meat business, associated with his brother, W. C. Smith. His father served most efficiently as county treasurer for one term, being elected in 1893. The present candidate is one of the most popular and substantial citizens in Fayette, known the county over and respected for his integrity, fairness and splendid all-around character. He served nine years as postmaster at Dunbar, having been appointed by President Theodore Roosevelt, and also served at various times in his home town as councilman, school director and tax collector, but he has never held a county office. Mr. Smith will make a real county treasurer.

The candidates for commissioner are George W. Hibbs and John S. Langley. One of these, Mr. Hibbs, is a candidate to succeed himself. In December, 1918, the judges and county commissioners unanimously appointed Mr. Hibbs commissioner. He was at that time councilman of Uniontown, having been elected by the largest vote ever given to a city official. Mr. Hibbs was born in Redstone township, some 40 years ago, where his ancestors had lived for generations before. He was a farmer until 1903 when he moved to Uniontown, where he became engaged in the real estate and insurance business. Later he became identified with the coal industry. The vote which Mr. Hibbs received at the recent primaries is sufficient token of the high regard which the voters of the county have for his honesty, intelligence, and vision and his record for service while in office.

John S. Langley is a name with which the voters are quite familiar. Mr. Langley is one of the best known Republicans in the county, coming from a staunch long-line Republican family. He was born in Luzerne township, near East Riverside, in 1867. His early boyhood was spent in Luzerne and German townships and he received his education in the township schools. In 1893 he took up his residence at Haddenville, engaging in the mercantile business, selling out in 1907. Since then he has been farming and is one of the heaviest taxpayers in Menallen township. He has been a resident of Menallen township since 1893. He served as tax collector of Menallen for two terms, was postmaster at Haddenville for 11 years and also was a member of the board of supervisors. He was elected county commissioner in 1908, and re-elected in 1911 and is, therefore, peculiarly fitted for the office to which he aspires and in which he previously made a fine record.

The candidate for prothonotary is Darrell W. Smiley. Mr. Smiley is one of the best known and most popular of the younger element of the Republican party in the county as was well attested by the splendid vote which he received at the recent primaries. He was born in Georges township, in 1883, locating in Uniontown in 1898. He received his schooling in the schools of Georges township and Uniontown borough. He worked with the Union Supply Company for a time, at the Lemont, Lockrone and Buffington stores. Then he went into the merchandise business in Uniontown, dealing in men's furnishings and shoes. On the first of January, 1912, he became first deputy clerk of courts under Clerk of Courts Richard Davis. He also served as borough auditor. For the past two years he has been chief clerk in the county commissioners' office. His entire record in his position in the courthouse has been one of unusual efficiency, courtesy and service and the voters are well aware of the fact and glad to be able to pay practical tribute to it.

Frank Ruse, as the result of the action of the Republican county committee Thursday, is now the candidate of the party for register of wills. Mr. Ruse was born in Greene county some 45 years ago, but resided in Dawson and vicinity from the time he was two years old until 1907, when he moved to Uniontown. He was employed on government construction work along the Ohio River for years and later on construction work here in the coke region. After locating in Uniontown he conducted the White Line Transfer Company for a number of years, then engaged in the contracting business and recently purchased Hagan's Restaurant, of which he is now proprietor. Mr. Ruse had no opposition in his candidacy to fill the place on the ticket made vacant by the recent and untimely death of Huston S. Williams of Fairchance, who was a candidate to succeed himself.

The candidate for recorder of deeds hails from Connellsville—Edgar W. Powell. He was born in Connellsville in 1890 and has resided here ever since. After graduating from the Connellsville High School he went to work for the Baltimore & Ohio Railroad. In 1913 he went to Harrisburg and took up his duties in the state treasurer's office. In 1917 he enlisted in Company D., 28th Division, went overseas with the famous organization and served with distinction all through the war, being in all the major engagements in which the division participated so valiantly. Upon his return to this country he went back to Harrisburg where he has since been employed in the state treasurer's office. Mr. Powell is one of the best known of the younger Republican element of the county and has a deserved place on the ticket.

The candidate for clerk of courts is Alfred O'Neal. Born in Franklin township of an old established Pennsylvania family, he finished the free schools of his locality and then went to work in the coke yards of this county. Later on he learned the trade of cigar making and because of his popularity and strength he was chosen first national vice president of the Cigar Makers' League of America, a position he held for some ten years. His management of company stores gave him executive and clerical training and his experience as a traveling salesman for 15 years gave him a wide and varied acquaintance throughout this section. He has just completed a term as clerk of courts and his record in that capacity bespeaks for the conduct of the office during the next term an administration of which the county may well feel proud.

Dr. S A Baltz is candidate for coroner. He was born in Pittsburg in 1877 and, after completing his high school education, went to Allegheny College, and from there to Jefferson Medical College, from which institution he was graduated in 1907. After serving as interne at the West Penn Hospital for one year he located at Broad Ford, this county and he has practiced medicine in this county ever since. He moved to Uniontown in 1915. At the outbreak of the war he enlisted in the Medical Department and was stationed at Fort Oglethorpe, Ga., and later at Camp Lee, Va., where he helped to organize a sanitary train. In March, 1918, he was promoted to the rank of captain and went overseas with the 317th Field Hospital Company of the 80th Division. He served overseas with the 319th Field Hospital Company, being in the action along the Arras front, St. Mihiel and the Argonne. In September, 1918, he was made attending surgeon of the 80th Division and established hospitals over the 80th Division area. He was later on General Cronkhite's staff and was recommended for promotion while serving in the Argonne and promoted to the rank of major by General Pershing, which rank he still holds in the reserve corps. He was one of the organizers of the American Legion in Fayette county, and was first commander of the Lafayette Post, Uniontown, serving three years. He also served for three years as district deputy commander of the American Legion of Pennsylvania, and is a member of the Fayette, Pennsylvania and American Medical societies.

For director of the poor on the Republican ticket is George H. Krepps, a practical, successful farmer ever since his 15th year when, upon the death of his father, the responsibility of the farm fell on his shoulders. Mr. Krepps was born in Luzerne township. After attending the common schools of his neighborhood, he went to California Normal and the Merrittstown Academy. From 1906 to 1908 he was tax collector for Luzerne township, and in his first year he accomplished the remarkable performance of collecting all but $78 of $35,-000 assessed. He has made good as director of the poor, as he has made good in everything else, and is well deserving re-election and the hearty support of every Republican.

Harry R. Blackford is the candidate for surveyor. He was born in 1885 in South Union township. After graduating from Uniontown High School he went to Ohio Northern University, at Ada, Ohio. After leaving school he was employed for five or six years with the H. C. Frick Coke Company, later was with the Brier Hill Coke Company and then for seven years was at Grays Landing with the Consolidated Coke Company as chief engineer and general superintendent. For the past four years he has been in business for himself. He has had much valuable experience and has made a success of his profession and the taxpayers will find him a diligent, competent and impartial servant. He prizes very highly a certificate from the State Engineering Board, a recognition not easily attained.

Each one of these candidates is a citizen who has given a worthwhile account of himself. Each one of these candidates will make good in the office to which he very properly aspires. Each one of these candidates deserves the vote of every Republican. By voting the straight Republican ticket you will give each and every candidate that to which he is entitled—your support practically expressed.

Vote the straight Republican ticket on November sixth.

Short Talks on Advertising

Copyrighted By Charles Austin Bates New York 1923

No. 2.

We all advertise. The infant's inarticulate gurgles advertise most effectively for board and lodging.

Our sons and daughters are well advertised at the head of their classes, and Mr. Kipling's "flanneled fools at the wicket" are advertising their prowess, and perhaps their pulchritude, to all who will see.

"Mr. Smith, allow me to present my friend, Dr. Scalpel,"—strictly ethical advertising for the doctor.

"Mrs. Gramercy Parke: Tuesdays in April." Advertising of a most subtle sort—for Mrs. Parke's friends block her street with their motors and their number advertises the success of her reception.

The diamonds of Mrs. Lenox Newport, the laces of Mrs. Washington Square and the gowns of Mrs. Plaza Van Netherland convincingly express their prosperity and their taste.

We all advertise.

It is the one thing all of us do.

In some way or other—always or occasionally—we advertise our smartness, our wisdom, our wit, our wealth and our familiarity with General Pershing and the Captains of Industry.

We are seen at the opera partly for the music and largely to advertise our superiority to the common herd which finds entertainment in the movies.

We choose our pictures and the decoration of our houses with one thought to our own inclinations and another to our friends' opinions.

If our magnificence creates conversation the advertising is successful.

Much money is expended for advertising business and personalities.

The high hat is an assertion of prosperity and advertises its wearer into the consideration he might not otherwise receive.

The presentation of a $600,000 collection of porcelains to the Art Museum and the giving of $10,000,000 for libraries is advertising—commendable, useful, desirable advertising, and positively worth the money.

Around the club table, over the Volstead highballs of grape juice, we swell out our chests and talk about the price of "Steel" and "New York Central" just as if it really interested us, and so by inference we advertise that we are quite some large pumpkins in the stock market.

And when we die!

Flowers, tears, hearses with plumes, mourners and motor cars, and eulogies and preachers and things, advertise our greatness and the grief of our heirs.

And finally they plant a ton or so of granite immediately above our swelling bosoms, to keep the grave from bursting with our pride, and in letters of imperishable stone carve upon it an advertisement of our manifold virtues.

So our life begins with a "help wanted ad" and ends with a "testimonial."

And all is advertising.

Your Ship.

Your "ship" is certain to "come in" safely if steered right. It's the way you set the sails that determines its course. THE SIGN OF MUSICAL PRESTIGE

in this community

Where you will find it—and why

There are two vital questions every purchaser of a musical instrument should ask before coming to a definite decision:

"What is the standing of the merchant with whom I am dealing as a local institution?"
"What is the standing of the manufacturer whose name the instrument bears as a national institution?"

A satisfactory answer to both should be obtained, irrespective of any other consideration—price, terms, claims or promises. Music for the home is so important a consideration that greatest caution in choosing is deserved.

Real success is rarely won over night. It is not mushroom growth. Our present commanding position is the result of years of hard work and square dealing. We have grown steadily, surely and solidly, from the day 20 years ago when we first opened our doors for business, until today, it has been necessary for us to double our floor space. In addition to our present quarters, we have taken over the entire second floor of the Odd Fellows Building, East Crawford Avenue, where you will find the most complete line of high grade Pianos in the city.

Lester — Schiller — Gulbransen and Brambach. Grands — Players and Uprights. Ranging in price $275.00 upwards.

The celebrated Brunswick Phonographs and Records. Player Rolls, Player Roll Cabinets—Piano Benches and a large line of Floor Lamps.

Our prices assure the greatest value possible to the buyer. Not something for nothing, but 100 cents value for every dollar invested.

Comparison tells you, you owe it to yourself to look around before buying.

HAYNES TAKES RAP AT HOME BREWERS

WASHINGTON, Oct. 20.—Prohibition Commissioner Haynes has launched upon a new campaign against home brew.

In order to stamp out what he characterized as "the menace of trafficking in home brew ingredients" the commissioner announced today that he would revoke the permits of all brewers which continue the practice of making malt syrups now used as a base for home made beers.

All brewers will be notified, said Mr. Haynes, to cease the manufacture of such syrups at once and fail ... to do so will result in prompt citation and revocation of their permits to manufacture cereal beverages.

It is the intention of the department to absolutely stamp out the menace in all sections of the country in a campaign to halt the manufacture and traffic of "home brew ingredients at the source."

The new policy was decided on after a conference between Commissioner Haynes and his legal staff. Clark M. Perry, prohibition director of Wisconsin, also participated in the conferences and reported the large ... of syrup by Wisconsin breweries.

Use of Federal Power Promised

Continued from Page One.

governors conference at West Baden, Ind., it became more apparent here that Mr. Coolidge is faced with a difficult task in dealing with the dry issue.

Developments in the last week have added fuel to the dry uproar started by the citizenship conference. They are:

Charges by August A. Busch, a brewer of St. Louis, that the federal government is following a policy of evasion and favoritism in dry enforcement; that whole states and large cities are exempt from the law; that corruption in the federal service as well as political sabotage and that the Anti-Saloon League connives with the trusts to force prohibition to stave off prosecution of the monopolies.

A new row over putting the federal dry unit under the civil service. The proposal of Wayne B. Wheeler of the Anti-Saloon League is opposed by the Civil Service Commission.

The industrial alcohol committee reports to Commissioner Blair of the Internal Revenue Bureau its opposition to making the prohibition unit an independent bureau and defends Secretary Mellon and Blair against charges that they have attempted to curb Commissioner Haynes.

Commissioner Haynes has thrown new fat into the fire by charging that political conditions in New York and New Jersey are responsible for flagrant violations in those states.

Republican managers are growing more nervous for fear the President's address to the governors will fail to outline a concrete constructive program for law enforcement that will clamp down the dry lid. In that event they feel that the ultra drys led by Governors Pinchot of Pennsylvania, Sweet of California and Neff of Texas will start a row that may be quite as unpleasant as the fight waged by the wets. Unless the prohibition question is settled for all at this conference leaders of both parties believe it may become one of the leading issues in the 1924 campaign.

South Side Cleaned Up.

The street department paid a visit to the South Side this morning sweeping the thoroughfares in that section and ridding the streets of an accumulation of many leaves.

Winged Chairs That Are Very Comfortable

A type of chair that pervaded our homes until rather recently is the mission with its younger brother the craftsman. Many of these are comfortable with their broad seats, sloping back, wide arms and deep upholstery. But they are too heavy, too lacking in the curves that give grace and beauty of line, and frequently too regardless of fine proportions to be classed as things of beauty. They served one good purpose and that was to banish the good and all the dreadful golden oak furniture with its ornateness and its machine carving that preceded the mission. A heavy dark mission chair or a so-called morris chair is often the favorite of some member of the family who clings to it as he does to his favorite morning paper. While such a chair may be incongruous and ugly, the Christian thing to do in regard to it is perhaps to leave it alone. Family peace is worth even greater sacrifice. But substitution may sometimes be practiced here successfully. With determined searching, a chair on the general lines of the one favored may be found that is in keeping with the other furniture and that is not in itself an eyesore. Unless the new chair is vastly comfortable it should not be offered. But if it is, then tact and prayer may avail. But ruthlessness is not for this emergency.

Winged chairs with upholstered seats and backs and arms are to be had that are good to look at and that are much more comfortable than the overworked ... They are so common. Other winged chairs have most of the framework exposed and still are comfortable. Those having cane seats and backs are an attractive variation. They have the quality of being adapted to go with many styles of furnishings.

Zev to Race With Papyrus Odds on English Contender

By United Press.

BELMONT PARK RACE TRACK, New York, Oct. 20.—Both Zev, definitely determined upon as the American contender, and Papyrus, English champion, were pronounced fit and ready for the $100,000 stake race by their trainers early this afternoon.

Papyrus was a slight favorite. Odds were quoted at the track favoring Papyrus to win four to five.

Belmont Park, where the horses have trained and where they are to determine the racing supremacy of the world about 3 o'clock this afternoon, had sprung into life teeming with all the colorful throng that goes to make up both a race meet and an international sporting event.

"Huh?" he asked.

"He wants me to jump with my dog in my arms."

Prompt

George and I had a terrible quarrel last night over the observance of our golden wedding anniversary.

Cokers, Somewhat Crippled, Will Put Up Great Battle Against Latrobe Hi Today

Better Offense and Defense Is Looked for; Fighting Spirit Reigns.

PLAYERS SHOW LOYALTY

The Connellsville High School football team this afternoon will face one of its hardest opponents in several weeks to come when it meets the strong Latrobe aggregation.

The fighting spirit of the Cokers will carry the team on this afternoon. Hard-luck has fallen the lot of the eleven this week, with several men looked upon as regulars sustaining injuries or not completely recovering from the effects of the game with Johnstown.

Never-the-less "Cap" Enos and his warriors are going on the gridiron with but one object in view—stopping the Latrobe outfit with its array of weight and speed.

The gridders demonstrated their loyalty to the school and Coach Lerew last night when they were conspicuous by their absence at a dance largely attended by students. The coach had previously made a request that the youths not go to the dance and this was complied with almost unanimously. There were two players present during the early hours but they left exceptionally early.

The fact that the boys passed up the hop indicates the spirit prevailing among them concerning the game this afternoon.

Regardless of the fact that some dependable regulars will be on the sidelines this afternoon, Latrobe will face as much better offense and defense than the Cokers have shown in previous games. Workouts during the past week have been very satisfactory and there is little pessimism.

The unusually large attendance at the mass meeting at the High School yesterday afternoon indicated the increased interest the student body is taking.

Major League Clubs Use Large Number of Balls

It is estimated that about [illegible] baseballs were disposed of by the 16 major league clubs this season. In addition, many more [illegible] used up by the minor leagues throughout the United States and Canada. Surely the business of manufacturing baseballs for the professional clubs is a profitable one.

Heroic Act of Collie.

A collie dog is reported to have saved the life of a little girl, while accompanying the child to a nearby store. The girl stopped on the railroad tracks [illegible]. Realizing the child's peril the dog threw himself against her with sufficient impact to knock her clear of danger, and was cut to pieces by the train before he could regain safety. The little one's mother had tried to discourage the dog from going when the daughter started on her errand.

UMPIRES DINEEN AND CONNOLLY HIT SCORER

Arbiters Say Ehmke Should Have Had No-Hit Game.

Official scorers often take umpires to task as to their decisions. Seldom, however, do umpires have an opportunity to criticize the scorer.

In the September 11 game at New York Howard Ehmke of the Boston Red Sox shut out the Yankees 3 to 0, allowing only one hit. It is on this hit that the umpires disagree with the official scorer.

Witt, first batter, sent a bounder to Third Baseman Howard Shanks. The ball struck Shanks' glove, bounded against his chest, then dropped to the

Umpire Tom Connolly.

ground. After Shanks had booted the ball several times, Witt was finally declared safe on a very close play at first.

The grounder was scored a hit by the official scorer. During the rest of the game not another New Yorker made anything that looked like a base hit.

Tommy Connolly, veteran big league umpire, who has been doing duty for 21 years in the majors and who umpired the game, has this to say about it:

"If ever a pitcher worked a no-hit game, [illegible] New York. If ever an infielder made an error, [illegible] Witt's grounder. It was a great [illegible] explanation that will fail to get its proper place in the Hall of Fame [illegible]."

Bill Dineen, former star pitcher, now American league umpire, who officiated in the game with Connolly, says:

"I have made lots of bad decisions, but never one that compared with scoring Witt's grounder to Shanks a base hit. It was a bad error on an easy chance."

In Ehmke's previous game on September 7 he pitched a no-hit game against the Athletics.

Advertising a Sale!

YOU don't leave your rig in the middle of the road and go to a fence-post to read a sale bill do you? Then don't expect the other fellow to do it.

Put an ad in this paper, then, regardless of the weather, the fellow you want to reach reads your announcements while seated at his fireside.

If he is a prospective buyer you'll have him at your sale. One extra buyer often pays the entire expense of the ad, and it's a poor ad that won't pull that buyer.

An ad in this paper reaches the people you are after.

Bills may be a necessity, but the ad is the thing that does the business.

Don't think of having a special sale without using advertising space in this paper.

Church News

...BYTERIAN—... Sutton crosses Pittsburg ... Francis J. Scott, D. D., minister. Bible school at 9: 5. Morning worship at 11. In the morning the Woman's Missionary Society will hold its annual thankoffering service. This service was instituted in the year 1887 for the purpose of meeting the great needs of the mission fields of our denomination and this annual service has become one of the fixed services in all of our churches. The Rev. Francis J. Scott will deliver the address on this occasion. The subject is "Things For Which We Should Be Thankful." Those who have not yet made their subscriptions to the Salvation Army may do so at the morning service. The evening service begins at 7:30. The subject is "The Invasion of Italy." This will be of special interest to all patriotic people. We should know how the hand of God has manifested itself in the history of our country. Our blood bought privileges should not be lightly considered.

CHRISTIAN—George Walker Buckner, pastor. Bible school at 9:30. Junior Endeavor at 2:30, Senior and Intermediate Christian Endeavor at 6:30. This is the first meeting of the Intermediates, and a full attendance is desired. Morning, and a full attendance is desired. Morning worship and sermon at 10:40; subject of the sermon, "Our Kadesh Barnea." Does this not accurately state the situation, so far as our own cause is concerned. Shall we now proceed, or shall we "dig in," to use a phrase more modern than that of our theme. It depends on you. Evening worship and sermon at 7:30; subject of the sermon, "The Militancy of the Christian Church." The church may be likened to many things, but truly it is an army. It is engaged in a warfare, and every Christian is a soldier. There are people who are extremely cautious, and who would say, "Go slow," when the church takes a stand for right. Usually these same people would forget their caution, if the devil were about to exceed the speed limit. There are those who profess great concern for the cause of religion—and yet those same people would render the church a negligible element in the life of the community. Perhaps you say you want to save the Lord's Day to the church and to society—yet will you please sit down and with pencil and paper, make a note of the things you deem harmless as Sunday pastimes? Then try to picture just what kind of a Lord's Day your Sunday would be. Again, if the church is not to be alert to the rights of God on God's Day, pray, to whom would look.

FIRST BAPTIST—E. H. Stevens, minister. Bible school, 9:45. A great missionary nation is the lesson. What did Israel stand for? What's its mission today? Morning worship at 11. Sermon subject, "Watchman, What of the Night?" Two great men of Europe have come to see us. What do they want? Has their visit a religious significance? Evening service at 7:30. Praise and preaching. Sermon on "The Church and the Laboring Man." Is the church friendly to the laboring man? What does the laboring man think about it? Where does he get his facts?

FIRST METHODIST EPISCOPAL—Dr. Bennett W. Hutchinson, minister. "Go to Church Sunday." Every member should be present Sunday morning. Services in Cameron School Hall on South Pittsburg street. Strangers and visitors welcome at all services. The pastor preaches at 11 and 7:30. Morning subject, "The World Is My Parish" and "The Wonder Book to Methodism." Evening questions: We read "Marriage is honorable in all" but is not marriage a failure?" Is not Prohibition responsible for the alleged "crime wave"? Does the world have to endure poverty, disease, slums, industrial strife, and class hatred? Or is there a remedy? Does I Cor. 15:22 teach that all men will be saved? Sunday school at 9:15 A. M. Classes for all ages. Epworth League at 6:30 P. M. Service of song, prayer and Bible study Wednesday evening at 7:30.

FIRST PRESBYTERIAN — J. L. Proudfit, pastor; W. P. Russell, assistant. Bible school at 9:15. Morning service, 11; subject of sermon, "Christ's Consecration and Ours." Vesper song service at 5 o'clock. Wednesday evening prayer meeting, 7:15.

CHURCH OF THE BRETHREN—Crawford avenue, West Side, J. A. Buffenmyer, pastor. Sunday school at 9:45. Morning worship at 10:15. The subject for the morning preaching hour will be "In His Steps." Christian Workers' meeting at 6:45. Evening worship at 7:30. If you have any Salvation Army pledge cards bring them along and drop them on the plates. We will see that they get to the right places.

TRINITY REFORMED—J. H. Dorman, pastor. Sunday school, 9:45. Worship, 11 and 7:45.

FAYETTE CHAPEL—United Brethren.—Mount Olivo, Sunday school at 10, preaching at 11. Moore Memorial, preaching at 7:30.

TRINITY EPISCOPAL — Fairview avenue and Prospect street. Twenty-first Sunday after Trinity. Sunday school at 10. Divine service at 11. E. A. Biddle, lay reader in charge. Wednesday, October 24. The Right Rev. Bishop Mann and Rev. Dr. Homer A. Flint will meet the congregation at 7:30 P. M. Thursday evening, at 8 o'clock the Men's Club will ... in a business session in the parish house. There is a welcome ... for all, and all of those meetings.

EVANGELICAL—Wine street, South Connellsville. Clewell E. Miller, pastor. Sunday school at 9:30. Morning worship at 10:30. Public worship at Poplar Grove church at 3 o'clock. Evening worship at 7:45. Prayer service on Wednesday evening at 7:30.

FIRST UNITED BRETHREN—Rev. J. H. Bridigum, pastor. Sunday school 9:45. Morning worship 11; subject, "Wanted, a Man." Junior Christian Endeavor 2:30; Senior Endeavor 6:30. A campfire service will be held. Evening worship 7:30; subject, "No Breath."

TRINITY LUTHERAN — Fairview avenue. William H. Hetrick, D. D., pastor. Class in the catechism 9 o'clock. Sunday school 10. Men's Bible class has a contest on "Every Member Is Interested." All out. Church service 11; sermon, "The Whole Armour of God." We little realize the power of entrenched and enthroned evil. We need a special kind of armour and weapon. Dr. Hetrick will describe this spiritual armour, the whole of it and not a part. Luther League 6:45. Inner Missions, Miss Edna Carlson, leader. Church service 7:30; sermon, "The Christian and His Enemies." A practical sermon on how a man to be a Christian must, not should, treat his enemies.

CHRISTIAN SCIENCE — Dunn Paine Building. Church service and Sunday school at 10:45 A. M. Subject of lesson sermon, "Doctrine of Atonement." Wednesday evening meeting at 8 o'clock. The reading room of this church is open week days from 2 to 4 o'clock.

COVENANTER CHURCH — Rev. Johnston makes the following announcement: Sunday school, 11; "Explanation of Terms of Communion," 11; Juniors meeting, 2:30, 5:30, C. E. P. U., "What Is Christian Citizenship." Leader, Edna Simmons. 7:30, Sermon, 'Scriptural Worship.' As next Sunday is our Communion Sunday, there will be preaching every evening during the week by Rev. D. H. Elliott, general secretary of the Forward Movement of the Covenanter, of Topeka, Kan. An invitation is extended to all the neighbors to attend these services.

Sutor-Trout.

Announcement is made of the marriage of Miss Ula Forrest Sutor, daughter of Mr. and Mrs. Solomon Sutor of near Scottdale, and Kenneth James Trout of Alverton at the parsonage of the Lutheran Church at Scottdale on Tuesday evening, with Rev. J. O. Glenn, the pastor, officiating. On their return from an eastern trip Mr. and Mrs. Trout will make their home at Scottdale.

THE UNIVERSAL CAR

New Roadster

Business men—with whom the runabout has always been very popular—are well pleased with the changes embodied in this model.
Always rugged, the car has been made decidedly trimmer and more comfortable.
This result is obtained by raising the radiator and enlarging the cowl; making a decided improvement in looks and providing more leg room.
A well designed top and slanting windshield do their share toward adding a finished, clean-cut appearance.
Make it a point to see the other new models also on display in our show room.

These cars can be obtained through the Ford Weekly Purchase Plan.

JEWETT SIX
PAIGE BUILT

Try to Pass It On a Hill
Then You Will KNOW *Jewett Six Has More Power*

LOTS of "boulevard beauties" are "duds" when asked to climb! That's where real ability shows. And that's where the new Jewett Six is daily outshining "light" sixes—and cars costing far more than Jewett.

The new Jewett Six outclasses all cars its size. It has a full 50 h.p. six-cylinder motor—Paige-built. Cylinders are 3 1/2 x 5 inches—which means 249 cubic inches of piston displacement. Check these figures against any "light" six. Form your own opinion of performance-possibilities of lesser-powered cars.

Having such power, Jewett Six need not be skimped in an effort to attain performance. Nor is it. 6-inch-deep frame; husky Paige-Timken axles, front and rear; all-steel universal joints; springs 80½ of wheelbase. The new Jewett weighs 3505 pounds—from 200 to 400 pounds more than "light" six cars of the same size.

And with all this husky strength and weight—Jewett drives from 2 to 60 miles an hour in high; passes most any car on any hill; accelerates from 5 to 25 miles an hour in 7 seconds in high. (Try that with *any* other car!)

Yet Jewett Six costs only $1065 (at Detroit). Old-time motorists are amazed at its performance, stamina and astounding value. Drive it yourself. Call us up. Have a ride, any time. You'll agree that Jewett outperforms most any other car you've ever driven—particularly when compared with "light" sixes of less power, less weight, less strength and durability! (adv)
